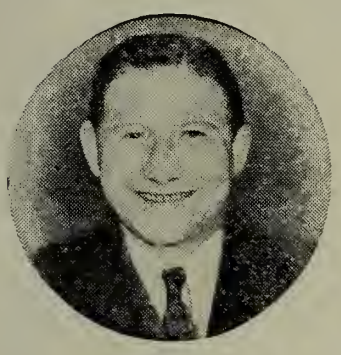
"The Coin Machines Merry-Go-Round"

By Bill Gersh



CONFERENCE GROWS

It is extremely pleasing to note the momentum that is gathering thruout the entire nation for all to attend the Second Wartime Conference. In the past few weeks we have been somewhat amazed by the number of participation forms we have received. These prove most definitely that the members of this trade have been hungering for a real, old fashioned get-together. They want to know where they stand now, what the future holds for them, what they should do, and what others are already doing to insure a prosperous, progressive future for themselves in this industry.

It is also important to all who will attend that such matters as Federal taxes, OPA's dual regulations, and all other problems which have been gathering up thruout the country, be brought to the floor and that by open discussion cures may be brought about. There are a great many in this industry who have been fighting these problems on their own and at their own expense. These men should now gather behind them the force and power of all this industry so that everyone will be helping to overcome the obstacles that face this business and which, once they are overcome, will allow for greater progress.

The Second Wartime Conference opens many grand and great possibilities for this industry. It is the second time that coinmen have gathered together as a unit to help themselves by helping all others. It is the plan of all good business men to work closely together at this time to assure themselves progressive continuance of their businesses during this wartime period. It is the plan of each and every man engaged in the coin machines industry today to somehow successfully survive the war and yet be most completely prepared for the post war era. The manufacturers, distributors, jobbers and operators who compose this industry at this time all desire that a strong nucleus remain as a backbone for this industry upon which the post war era can build and know that it will have a sturdy foundation.

The war effort, too, requires the greater attention of every member of this industry. This is something that none can afford to pass by at this time. Such effort on the part of this industry now will win extremely great favor for this business for the future. This is one job that everyone engaged in this industry is eager and even anxious to do but would like to know just how to proceed. Remember that this is about the one and only industry in this nation with so complete and wide a coverage of varied retail outlets. It is therefore in a most unique position to help the war effort. Sales of War Bonds and Stamps can be doubled by intensive work on behalf of all engaged in this industry thru the medium of these retail outlets - thousands upon thousands of them thruout the nation. Every machine can broadcast this need for all the public to see. We have done much - but we can do much more. This industry can win great acclaim for the work it can do today - which will most assurodly help it tremendously for tomorrow.

There are also a great many now engaged in this business who have certain individual problems peculiar to their own territories which can also be best cured by airing them at the Second Wartime Conference. Others may have been thru these problems and already corrected them. Before they become widespread is the time for all to rapidly stamp them out. It becomes necessary, then, for each and everyone now concerned with this business in any fashion whatsoever to get together and help make this Second Wartime Conference the most outstanding meeting in all the history of the coin machines industry. Cooperation now is vitally important. That cooperation can best be expressed by bringing everyone within a great radius of each individual's headquarters to the Second Wartime Conference.

PAT-ON-THE-BACK DEPARTMENT

From R. C. Kennedy of Northwestern Music Company, Sterling, Ill., "Herewith enclosed is our check for $48.00 for which please enter renewal of our subscription which is about to expire, said renewal for a period of 52 weeks or one year. Wish to take this opportunity to congratulate you on the very fine job you are doing and assure you of our appreciation of your efforts in behalf of the trade in general."

"The Coin Machines Merry-Go-Round"

From Bill Gilles, Gilles Candy Company, Osage, Iowa, "I am enclosing my check to keep The Cash Box coming to me as I feel that I get more than my subscription price back on the machines I sell thru the service you offer all of your subscribers."

From Henry W. Seiden, Seiden Distributing Company, Albany, N.Y., "Insofar as continuing my advertising in The Cash Box, I will repeat, as stated before, that the results have been so satisfactory that I wouldn't consider dropping this means of advertising to the trade. Barring any unforseen happenings, my plans are to attend the conference to be held in Chicago, November 15th thru 17th, at the Hotel Morrison. Further to this, I might suggest that you send some of the participation forms which will be immediately directed to our various active accounts."

ARE WE GOING AHEAD?

It is most interesting to note that a great many now engaged in this industry, after the first flush of the big business being enjoyed at this time, are now of the belief that they may have been too busy with their own individual businesses to wonder about all the rest of this industry. They also have discovered, as they hear of new tax bills being proposed and new and larger taxes being placed into effect, that they most definitely are not all alone, hidden away in some remote part of the world, but instead, are a definite and integral part of an industry which is international in scope. It is therefore to the advantage of each and everyone engaged in the coin machines industry at this time to clearly and completely think out whether this industry has made any progress at this time?

The fact that the take may be better today does not mean that we have bettered all other conditions upon which this entire industry is based. Just to believe that one town here, or one state there, or one entire section of this nation, is enjoying better business than it ever has before, does not and will not make for a progressive industry. When an industry is progressive manufacturers will eagerly enter into it and create some new type of mechanism which they believe may fit into the picture of the industry as a whole. But, when an industry allows itself to become disintegrated into small and non-cooperating units, then the larger men will not enter into the picture in an attempt to create the type of products which may prove of tremendously great benefit to all concerned.

It is important, therefore, for all at this time engaged in the business of operating or selling coin operated equipment, to take personal inventories and to also attempt to get inventories of immediately surrounding firms so as to devise ways and means as to how these can be made to fit into the larger picture for a more progressive and richer industry. These men, by so doing in each and every individual case, can bring the necessary pressure to bear to help create the larger and better picture for all everywhere in the nation and thereby assure themselves, as well as all others, greater and more lasting benefits in the years to come.

OCTOBER 14

On October 14, 1943, Samuel "Curley" Robinson of A.O.L.A.C., and Arthur Mohr, attorney for this group, will meet with the Ways & Means Committee in Washington, D.C., regarding coin machines taxation by the Federal Government. It is their appeal that all coinmen with complete data of the effect taxes have had upon their businesses meet with them at the Statler Hotel in Washington, where they will maintain headquarters, on October 13. They also ask that all those who can possibly spare the time be present at the meeting with the Ways & Means Committee.

As everyone knows the Federal Government must find more and greater revenue for the successful prosecution of this war. No one will argue this fact. No one wants to argue this fact. All agree that this is one time when every individual and each and every industry in the nation should be more than willing to give all to meet the need of the Government.

At the same time it is fact that certain coin machines men in certain territories have been unbearably taxed. Many of them have had to close down. Others have found it just barely possible to continue with local and state and Federal taxes an extremely heavy burden to bear. These are the men whom "Curley" Robinson and Arthur Mohr are anxious to help. The big job for this duo will be, as we have written before, to hold the line at its present place. This is one big job. If they can hold the present tax line and thereby prevent any further increase in present coin machine taxes by the Federal Government, they will have won the acclaim and commendation of all now engaged in this industry. And should they be successful in actually lowering taxes now in effect - this industry should go all out in its thanks to them.

SCARCITY

The continued scarcity of equipment has made itself deeply felt thruout the entire industry. Tho this was noted to be coming about at a rapid rate, many engaged in the business believed that the nation's coin machines men, by releasing a small part of their equipment for one reason or another, would help to satisfy all demand. Now they find, instead, that equipment grows more scarce each week and yet the necessity for replacement grows greater each day.

"The Coin Machines Merry-Go-Round"

To keep this business rolling along at a smooth and even pace it will be necessary for more equipment to enter into the field so that others, who find their machines wearing out, will be able to replace wherever they possibly can and thereby retain a profitable backbone upon which to build with new equipment when the manufacturers are in position to produce all over again.

This scarcity of equipment is equalled by the scarcity of manpower. Mechanics are extremely hard to obtain. Many operators, jobbers and distributors, who haven't held a screw driver or pair of pliers in their hands for many years are now taking off their coats each morning, rolling up their sleeves, and getting back into the swing of repairing equipment again. It is estimated by some that the scarcity of equipment could be overcome on the present market by bringing mechanics in to certain organizations that still have equipment to sell but who haven't the manpower to recondition these machines for the trade.

Here is something that requires ingenuity. Perhaps someone can figure out how to arrange to pool the present mechanical help of the nation and transplant it to various territories to help equipment get to market, which equipment is now so necessary to the successful continuance of this industry.

WARTIME CONFERENCE SPECIAL

Tho only a few announcements have been made, the response to the "Wartime Conference Special" which will be featured this November by The Cash Box, is already most pleasing. The covers are already on the way to the presses and will once again appear in full color process print. Many have already reserved page ads for this issue and some have already sent in their copy. We believe that this is one time when all engaged in this industry can feature an advertisement regarding their future plans. Instead of our usual Fall Special issue this Wartime Special will open a vast new path of thought for all the trade and perhaps point the way to what the future of this industry requires from each and everyone now engaged in it.

We have also learned, from investigation, that most firms are already well under way with plans for after the war. At least, we do find, that most of the men engaged in this industry know what they would like to do the moment this war is won. This is the time to bring such plans into the open. All the trade can use this Wartime Special as the medium which will express their thoughts for the future. This issue will close on November 10th. Reservations should be sent in immediately for all full and half page printed ads.

AMUSEMENT FOR THE ARMED FORCES

As is well known to everyone engaged in this industry and to all the public, too, there has been a constant demand from the armed forces for amusement games of all types. Large department stores thruout the country have featured letters received from far away points of the world wherein groups of service men have gathered together and sent them money for some amusement devices. It is also well known that the present arcades are enjoying the greatest part of their boom from the boys in the armed services. Wherever men in uniform gather, they seek amusement. The phonos have become their mainstay for popular music. The armed services procurement divisions have sent letters thruout the country to many engaged in this industry for the purchase of automatic phonos. Many have been selling phonos for sometime to these procurement divisions for entertaining the boys at the front as well as in the camps in this nation.

This outstanding fact, the necessity for coin operated amusement for the armed services, places this industry in a new and better light with all the public. Fathers and mothers whose sons are in camps in this country, or whose boys are already over there, many thousands of miles away from home, hear of the enjoyment that is daily being received from coin operated amusement equipment which has been gathered together for this purpose by the procurement divisions. This certainly wins a finer sentiment toward coin operated amusements in this nation. It is the sort of thing upon which this industry now has an opportunity to build for the future. To win the sort of sentiment for itself which will assure it better understanding after the war is over from the new fathers and mothers who will then come into being - those same boys and girls who went over there and found this their one sort of nostalgic, "back home" amusement.

The requests for more amusements by the U.S.O. and other worthy organizations has been well answered in most cases by the men of this industry. But even greater effort should be put forth in this direction. The fact that a few old games are being given away free to these service men is but insurance for tomorrow's play action. These men are not only coming to better understand the present amusement devices but are surely developing a certain degree of enjoyment from them which makes them the good players of tomorrow. Therefore, even from a selfish standpoint, the members of this industry who may have momentarily hesitated about giving away some old machines, should forget such hesitation immediately for this is their assurance that their locations will get better play action than ever before when Johnny comes marching home again.

Who's Afraid of Hirohito?

"My big brother's out there in the Pacific—and he and his buddies are plenty tough. So who's afraid of Hirohito?"

Safe in America, far from the fury of war, a schoolboy's faith in America's might is boundless. His fighting brother is probably not so cocky. Fighting men know that their fate depends, not on their courage alone, but on the strength which they must receive from the folks at home—*safe in America, far from the fury of war.*

Buy War Bonds. Buy the Bonds you owe your family as a nest-egg. Then dig down again and buy Bonds until you feel you can face the fighters who are now returning, sick and broken, from the far frontiers of American freedom.

CONVERTING! REBUILDING! REFINISHING! MILLS & PACE SLOTS - ALL MODELS

Machines are rebuilt to our 3/5 One Cherry Victory Pay-Out Model or to a late 3/5 Two Cherry Pay-Out, as you desire. All machines are finished off in original finish or Glitter Gold Chromed. All machines are furnished with Club Handles and have the appearance and qualities of a new machine.

For greater profits, have a set of your machines converted, rebuilt and refinished. Place a set of these machines next to any other set and watch the play and attraction.

Locations today will be well pleased with a set of these machines due to the fact that nothing new has been made for quite sometime. These machines will not only last for the duration, but for a long time afterwards.

TERMS: Ship all machines to us prepaid. We ship them back to you C.O.D. All work is guaranteed. We stand back of every machine we convert, rebuild and refinish.

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.
